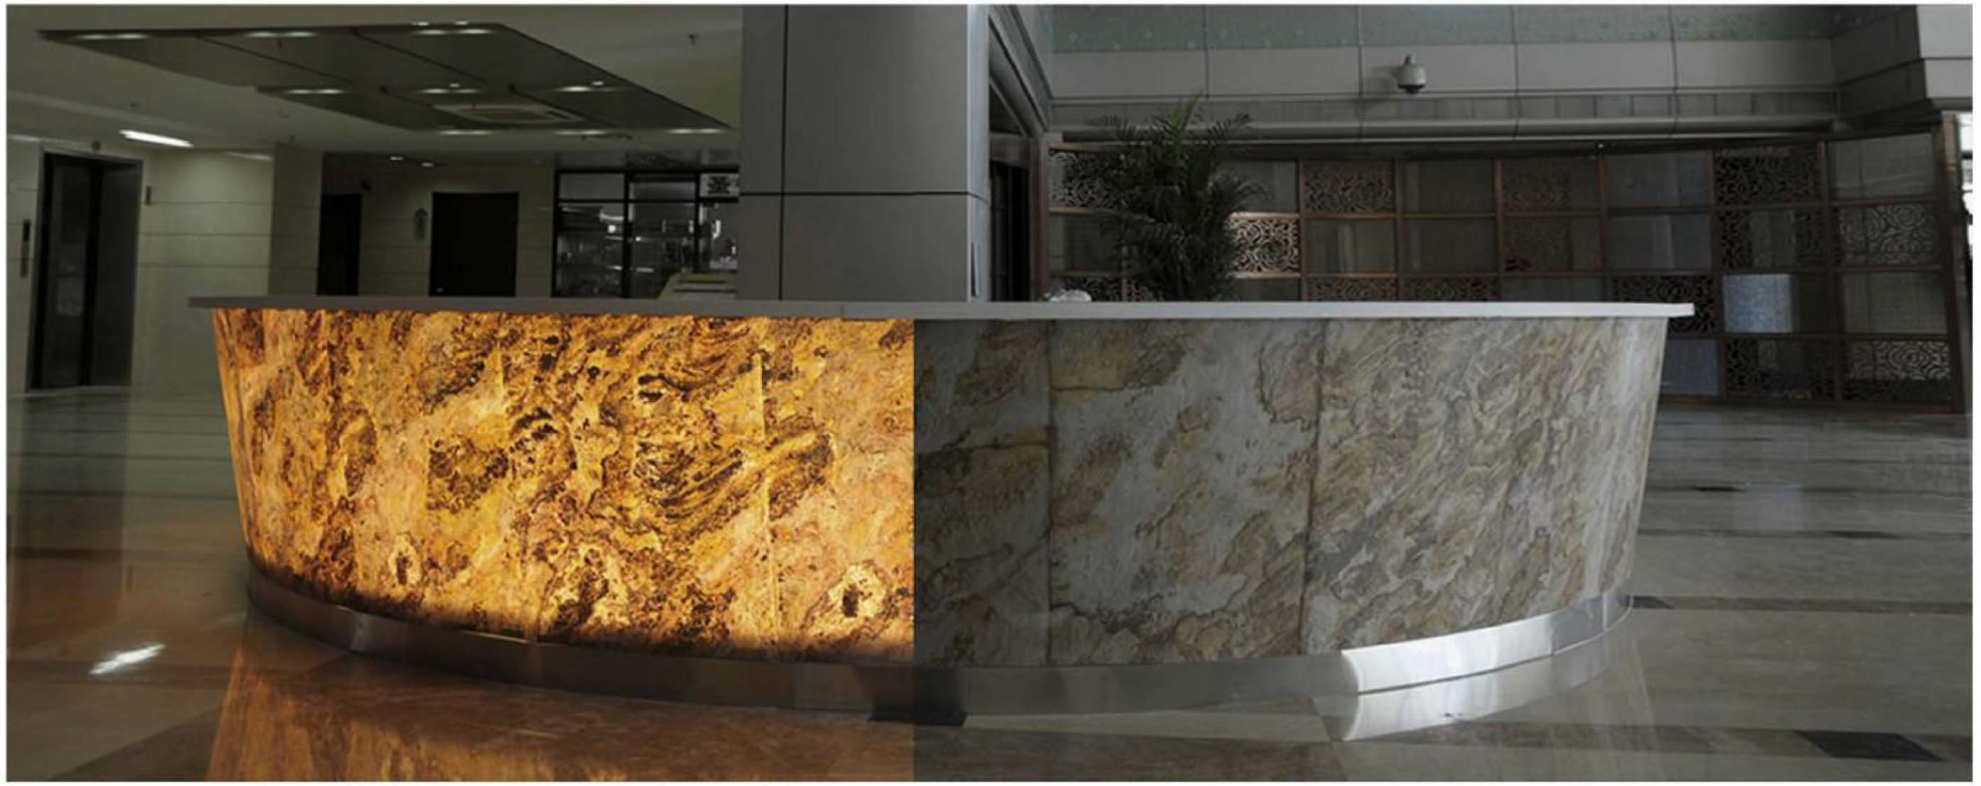
SOFT-STONE™

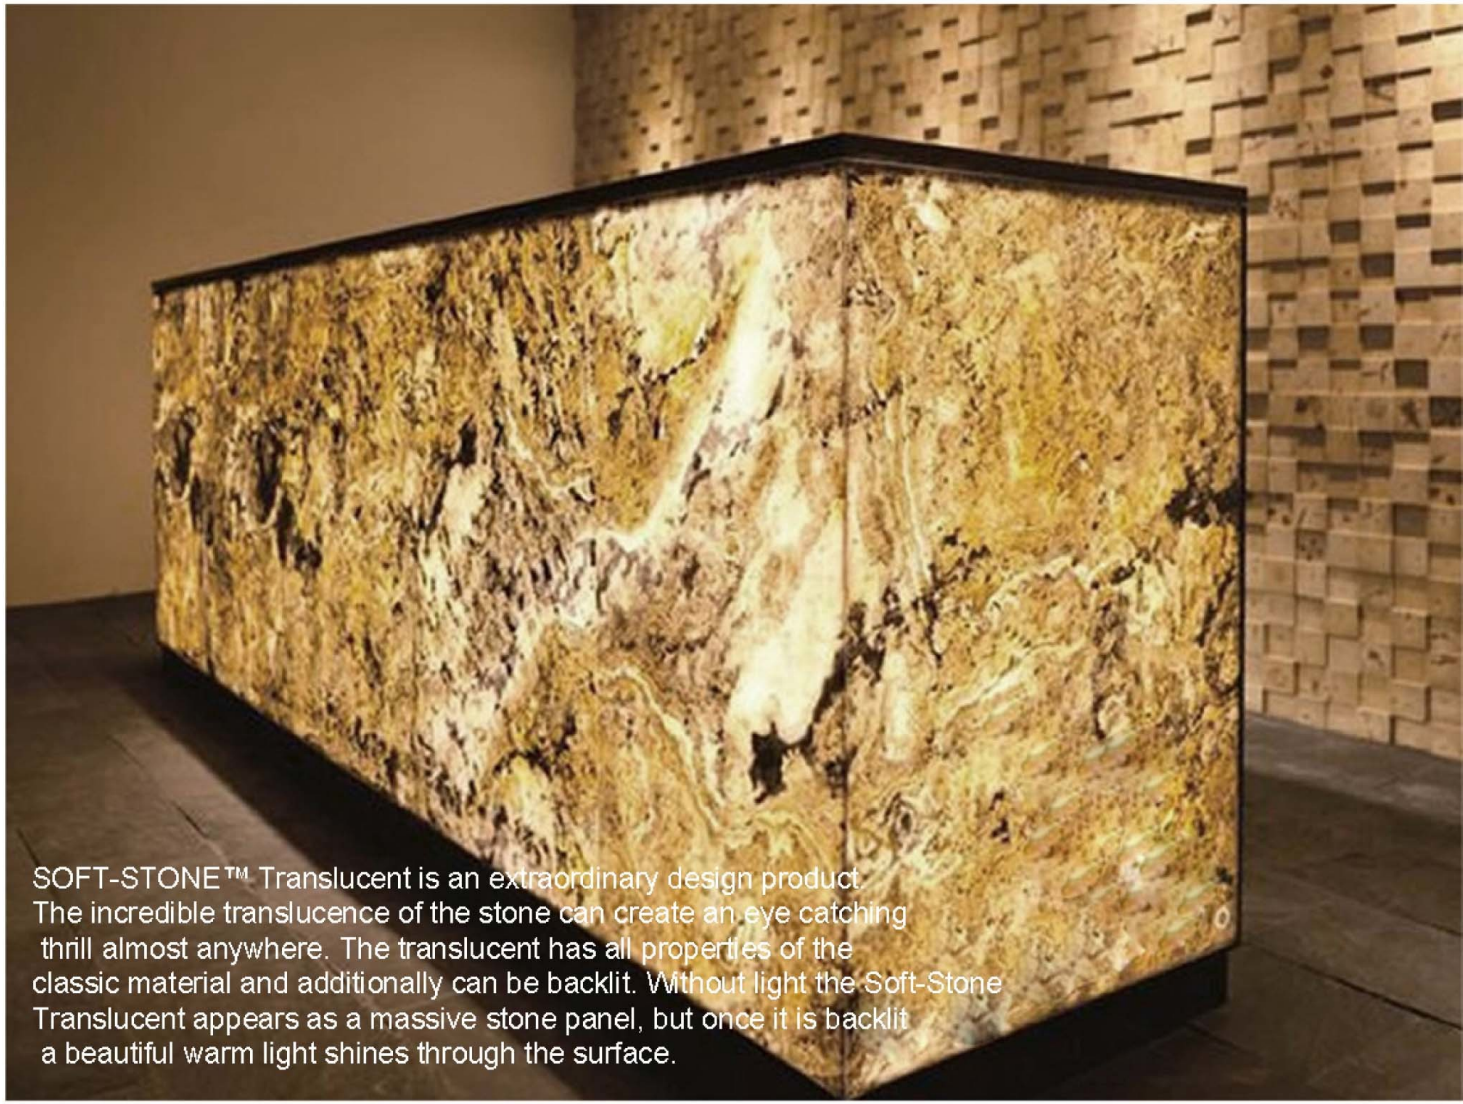


TRANSLUCENT

SOFT-STONE™ cannot be guaranteed to match panel to panel, so it is recommended that orders take into account of future maintenance or re-fit possibilities. Since this product is made of natural stone, color, texture and grain variances are not defects within the material and no two sheets are exactly the same.

ST-01t (1200mm x 2400mm)

* translucent version image taken with warm white backlit
* for indoor and dry area use only



SOFT-STONE™ Translucent is an extraordinary design product. The incredible translucence of the stone can create an eye catching thrill almost anywhere. The translucent has all properties of the classic material and additionally can be backlit. Without light the Soft-Stone Translucent appears as a massive stone panel, but once it is backlit a beautiful warm light shines through the surface.
